

Dear madam and sir,

With the coming of the war in our country, the cities of Western Ukraine become a refuge for a large number of people who were forced to leave their homes. The city of Ivano- Frankivsk welcomed a large number of refugees, including women requiring gynecological and obstetric care.

Our Municipal Prenatal Clinical Center is one of the pillars of impatient care for this category of population. Due to frequent air raids, the medical staff takes women to the shelter each time where they continue to provide medical assistance and give births.

We turn to you, counting on your support and help for the Prenatal Clinical Center during the war.

Below there is a list of the need for medicines, equipment and medical supplies. We are aware that you are also in difficult situation due to a large number of Ukrainian citizens in Poland; therefore we will be
